Your guide will meet you at the Maun International Airport or your hotel. After a short briefing by your guide we head for a lodge just outside Maun. For those who want, a flight over the Okavango Delta can be organized at own expense. You will have the time to shower and relax at the lodge with a drink before dinner is served. During dinner you'll have a complete breakdown by your guide about the rest of the tour and you can ask all you want to know about the country and its people.

Accommodation: Mid-range hotel located in or near Maun

### **Day 2: Moremi Game Reserve**

#### ***Day 4: Khwai River concession***

Today we leave the Moremi Game Reserve and follow the river Khwai. We move camp to the Khwai River area where we stay the next 2 nights. A relaxed game-drive takes us to North Gate where we have lunch at the picnic spot. Arrival in camp around 2 PM. Time to shower and then we make a first drive along the river to see the many animals that come there to drink. This concession allows off road driving so following animals is much easier in this area.

#### ***Day 5: Khwai River concession***

This morning we make a mokoro trip on the river and on the lagoons, beautiful scenery. Lunch back in camp, time to relax and the afternoon drive ends at a sundown spot where we wait till dark has set in, after which we make a night-drive back to camp. This gives us the chance to see the nocturnal animals and we also learn about the sounds and the night sky. Arrival back in camp around 8 PM followed by dinner.

#### ***Day 6: Savuti***

An interesting game drive takes us away of the Khwai river, traveling north via the Mababe Depression to Savuti, our camp for the next 2 nights. The Savuti area with wide open grassy plains and scattered rocky outcrops is the perfect area for large herds of elephants, zebra and wildebeest and giraffe families, not forgetting the many predators that follow them. We enjoy a picnic lunch in the bush and arrive in camp mid-afternoon in time to still make a short sundown drive. Our staff has again prepared a superb bush-dinner and the campfire will welcome us.

#### ***Day 7: Savuti***

As the Savuti area is vast we can opt for a full day trip or a combined morning and afternoon drive, this depending on where animals are concentrated. Your guide will advise you the day before so you can organise accordingly. The plains are always a highlight and the area is known for its great concentration of predators. We also make a short climb to see some Bushman rock paintings, beautiful vistas from the hill. Back in camp after sundown.

#### ***Day 8: Chobe National park***

Today we make a last game-drive in the area and then head North to the Chobe river. We pass some traditional villages along the road and have plenty possibilities for a "lunch with a view". Arrival in camp is around mid-afternoon and we still have time for a sunset drive along the river. This area has the largest population of elephants in the world and seeing several hundreds a day is normal, expect them to visit the camp.

#### ***Day 9: Chobe National park***

Today we explore the Chobe River and make an extensive game-drive along its borders. The area really has one of the densest animal concentrations in Africa and you can expect to see many different species: roan antelope, sable antelope, puku, red lechwe, giraffe are commonly seen and the possibility of seeing lions, leopard, wild dogs is high, Chobe never disappoints. Lunch is at a restaurant in town and in the afternoon we

make a boat trip on the river as this is the time when most animals come to the river to drink. We are back in camp by sundown. After dinner we enjoy our last campfire of the safari.
